DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 13, 16 and 19 recite, inter alia, "disposing a first major surface of a translator plate onto the anisotropic conductor, such that an electrical pathway is established between at least one of the plurality of pads of each of at least two of the plurality of integrated circuits, and corresponding electrical contact pads on a second major surface of the translator plate." The above limitations providing cost-effective and reliable means for contacting a large number of I/O pads simultaneously while the integrated circuits are still in wafer form.

Although Wong et al. (U.S. 6,121,065) disclose Wafer scale burn-in testing and Hsiao (U.S. 4,628,991) et al. disclose a wafer scale integrated circuit testing chuck, they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
